

Sacred Heart RC Primary School, Battersea

Special Educational Needs and Disability (SEND) Information Report 2023 - 2024

As a school we work within the Wandsworth guidance on Provision for children with SEN in mainstream schools which explains the ways children with different additional needs are provided for within the school. We also follow our 'Equality and Disability' policy and we also have an 'Accessibility' plan.

At Sacred Heart RC School, Battersea, all pupils, regardless of their particular needs, are offered inclusive teaching which will enable them to make the best possible progress in school and feel that they are valued members of the wider school community. Quality teaching is vital; however, for some children, there are occasions when further positive support may be needed to help them to achieve. We may offer the following range of provisions to support children with communication and interaction, cognition and learning difficulties, social, mental and health problems or sensory or physical needs.

The range of support deployed will be tailored to individual needs following thorough assessment by internal or external agencies. It is designed to promote pupils working towards becoming independent and resilient learners and should not be seen in isolation.

At Sacred Heart RC Primary School, our Special Education Needs Co-ordinator is: Thohomina Chowdhury. She can be contacted on 02072235611 Ext. 110 or senco@sacredheart-battersea.wandsworth.sch.uk

What should I do if I am concerned about my child's progress or special educational needs?

You should first speak to your child's class teacher.

He / she is responsible for:

- Adapting and refining the curriculum to respond to the strengths and needs of all pupils. Checking on the progress of your child and identifying, planning and delivery of any additional support.
- Contributing to devising personalised learning plans to prioritise and focus on the next steps required for your child to improve learning.
- Applying the school's SEN Local offer.
- If the teacher feels it is appropriate he/she may then ask for a further meeting that the school SENCO will attend.

School SENCO is responsible for:

- To help assess children's difficulties and help their teachers devise appropriate Provision Maps ensuring that only those children who need provision that is additional to or different from their peers should have a Provision Map.
- To review the Provision Maps with teachers on a termly basis.
- To organise and chair all Annual Reviews of Education Health Care Plans.
- To review the work of the Learning Support Assistants (L.S.A. s) and to liaise with them.
- To meet with and offer advice to parents on their child's problems.
- To liaise with outside agencies, Early help, Welfare, Speech and Language Therapy Services, Occupational Therapy Services, Educational Welfare Officer, Educational Psychology Services, Services for Visual Impairment and Hearing, Social Services and other Health and Medical Services as appropriate.
- To liaise with Secondary Schools about the transfer of information for children with SEND and with other primary schools about the possibility of sharing some resources.
- To attend inset/courses for SENCOS, and ensure that the SEND training needs of all staff are met.
- The Co-ordinator will monitor provision for children with Statements of SEND issued by the local authority.
- To make referrals to appropriate agencies where concerns are raised by school or home.

Our Headteacher is responsible for:

- The day-to-day management of all aspects of the school, this includes the support for children with SEN and/or disabilities. However, they will give responsibility to the SENCO and class/subject teachers but is still responsible for ensuring that your child's needs are met.
- They must make sure that the Governing Body is kept up to date about any issues in the school relating to SEND.

Our SEN Governor is responsible for:

- Making sure that the school has an up to date SEND school offer.
- Making sure that the school has appropriate provision and has made necessary adaptations to meet the needs of all children in the school.
- Making sure that the necessary support is made for any child who attends the school who has SEN and/or disabilities.
- Making visits to understand and monitor the support given to children with SEND in the school and being part of the process to ensure your child achieves his/her potential in school.

How does the school decide whether a child has special education needs and what extra help they need?

Ongoing monitoring takes place by class teachers to identify pupils who are not making expected progress or who have behaviour needs which are affecting their ability to engage in learning activities.

After discussions with parents and key staff, additional support will be put into place to provide enhanced resources and/or targeted small group and/or individual support to help overcome any difficulties. The views of the pupil or young person about their support will be given consideration at this point.

This additional support is documented in a SEN Provision Map. In consultation with the class teacher, SENCO and parents, short term targets are agreed which prioritise key areas of learning or behaviour to address and by which progress can be measured. Where external agencies are involved, their advice and recommendations are included in these support programmes. Actions agreed consider each pupil's strengths as well as their difficulties.

In some cases, teaching assistant support may be allocated. This support is deployed to ensure a child can engage in lessons and wider school activities and to facilitate independent learning to support transition to adulthood. Review meetings are held at least termly. Parents, relevant external agencies and when appropriate, pupils are invited to this review and their contribution is valued. The impact of support offered is considered along with the progress towards targets set. Support arrangements will be updated and revised accordingly. If not involved already, this might include referral to external agencies. The outcomes of these meetings are recorded.

If your child is continuing to have significant difficulties, further external expertise may be requested.

How will I know how my child is doing and how will you help me to support my child's learning?

The process of identifying that a child might need additional support or assessment will involve a conversation between school and parents or carers at the earliest opportunity. This makes sure that parents and carers are always consulted at every step and kept fully informed about the help their child is given, and the results of that help. If your child is receiving additional support because of a Special Educational Need or disability, you will receive a copy of your child's SEN Provision Map each time it is reviewed. This gives details of the specific targets your child is working towards and how we can work, in partnership, to help your child achieve these targets.

You will also be invited to talk about how your child is doing - what is working and what we might need to do differently. This meeting is in addition to our Parents Evenings. Coming to these review conversations gives you an opportunity to talk in greater detail about the support that is in place for your child and to ask questions or give us information in a friendly, unhurried situation.

We are very happy to work closely with parents and carers of children with more complex needs, in order to support them in school, wherever it is appropriate and possible. We have worked with parents and carers to learn how to support children with medical conditions, those who need specific pieces of equipment or technology, those who need to continue prescribed therapeutic regimes (speech and language, occupational therapy, physical therapy) or need to attend other schools to access part of the curriculum.

If you have any questions about what is possible, please come and talk to us.

How will my child be involved and consulted?

If a child feels they require additional help, they will normally discuss this with the class teacher. If the child still feels more help is needed they would be invited to talk with Mrs. Chowdhury, SENCO about what help they need. Where they are unable to do so, support will be provided to facilitate this conversation.

During the SEN Provision Map process students' views are sought (where appropriate) as well as views/ideas they may have expressed at home.

How do you assess and review my child's progress?

Your child's progress is continually monitored by his/her class teacher.

His/her progress is reviewed formally every term and a National Curriculum standard given in reading, writing, numeracy and science as well as progress in other areas, as appropriate, such as attendance, engagement in learning and behaviour.

If your child is in Year 1 and above, but is not yet at National Curriculum levels, a more sensitive assessment tool is used which shows their level in more detail and will also show smaller but significant steps of progress. At the end of each key stage (i.e. at the end of Year 2 and Year 6) all children are required to be formally assessed using Standard Assessment Tests (SATS). This is a government requirement for all schools and the results are published nationally. All children at SEN support will have a SEN support record which will be reviewed with your involvement, every term and the plan for the next term made. The progress of children with a statement of SEN/ EHC Plan is formally reviewed at an Annual Review with all adults involved with the child's education. The SENCO will also check that your child is making good progress within any individual work and in any group that they take part in through regular meetings with the staff delivering the programme and the Class Teacher.

A range of ways will be used to keep you informed, which may include:

- Home/school book
- Letters/certificates sent home
- Additional meetings as required
- Reports

How is teaching and the curriculum adapted to my child's needs?

Teachers are skilled at adapting teaching to meet the diverse range of needs in each class. Daily planning considers individual pupil's needs and requirements. Differentiation is approached in a range of ways to support access and ensure that all pupils can experience success and challenge in their learning.

Grouping arrangements are organised flexibly with opportunities for both ability and mixed setting to maximise learning opportunities for all.

Additional adults are used flexibly to help groups and individual pupils with a long-term goal of developing independent learning skills. Monitoring takes place to avoid pupils becoming over reliant and dependent on this adult support.

Our staff are trained in order that we can adapt to a range of SEND - specific learning difficulties, including dyslexia, (SpLD); autistic spectrum disorder (ASD); speech, language and communication

needs (SLCN); and behavioural, emotional and social difficulties (BESD). When teaching, staff use different approaches to learning: these are visual, aural and kinaesthetic methods.

Teachers are trained according to the needs of the children in their care. Additional training includes delivering speech and language programmes, Occupational Therapy exercises, Strategies to support well-being.

As a school, we firmly believe that additional staff can benefit teaching and learning and students should have access to learning support staff. Classes are allocated support staff, and have access to guided group work. Some students who have an EHCP, may also have access to additional adults to specifically work with them to participate in class.

Strategies/programmes to support speech and language:

- Staff carry out strategies suggested by speech and language therapist.

Strategies to support/develop literacy inc. reading

- Little Wandle Phonics/reading intervention groups
- Small booster groups in Math's and English
- Beanstalk Reading Support
- LEXIA Interventions
- Pre- teaching interventions

Strategies to support/develop numeracy:

- In class group support
- Small booster groups
- Mathematics

Provision to facilitate/support access to the curriculum:

- General SEN resources (e.g. move and sit cushions, pencil grips, reading rulers etc.)

What support is there for my child's emotional well-being?

Appropriate curriculum and provision underpins the social and emotional wellbeing of the students. Sacred Heart follows the PATHS programme from Nursery to Year 6.

Positive behaviour plans are drawn up to support individual pupils. Social, Moral, Cultural, Spiritual activities are identified on Medium-Term Planning for each subject PHSE is a subject with a high profile throughout the whole school. Achievement and success is regularly celebrated in the form of certificates awarded at a weekly Celebration Assembly.

Emotional well-being is supported by making sure that children who find “change” difficult are well prepared for any changes or transitions. When they are about to change class, they are helped to make their own transition book, which they can revisit during the summer holidays. To promote positive friendships, we may use a ‘circle of friends’ or ‘circle time’ involving the whole class. Our therapy manager Michelle Bativa is here to support pupils and families with emotional needs.

What training and specialist skills do the staff supporting children with SEND have or are having?

The SENCO’s job is to support the class teacher in planning for children with SEN. The school has a school strategic plan, including identified training needs for all staff to improve the teaching and learning of children including those with SEND. This may include whole school training on SEND issues or to support identified groups of learners in school, such as ASD, dyslexia etc. Whole staff training to disseminate knowledge, strategies and experience, to ensure consistency of the school’s approach for children with any SEND needs. Individual teachers and support staff attend training courses run by outside agencies that are relevant to the needs of specific children in their class e.g. from the WAAS Outreach service, and Wandsworth Sensory service or medical /health training to support staff in implementing care plans.

Training takes place on a regular basis. If you would like to hear about the training which is currently taking place or has taken place by the staff members in the school, please speak to the SENCO or Associate Headteacher.

What do we do to make the school environment and curriculum accessible for all children?

We use workstations; visual timetables and cues; PECS; sensory circuits; various ICT Programs and countdown timers for children who need it. We use the Zones of regulation as a whole school approach to help all children with regulating their emotions. We deliver speech & language programmes provided by the Speech Therapy Service. A therapist will demonstrate to school staff how to use the programme and this will then be taught and assessed after a given period of time. We deliver Occupational Therapy programmes provided by the Occupational Therapy service.

We use ICT equipment and programs to support specific needs. We use a range of software to help children engage with subjects they find difficult. This helps children to become independent learners. Any specific physical requirements will be assessed individually and equipment will be provided to meet those needs with the help of Local Authority SEND services.

Access to strategies/programmes to support occupational/physiotherapy needs:

- Handwriting groups
- Ramps
- Visual Paint
- Sensory circuits

Tests and Examinations: Access Arrangements

For some pupils additional arrangements and adjustments can be made to enable them to fully access a range of tests. This might include additional time, rest breaks or the use of a scribe or word processor.

How will my child be included in activities outside of the classroom?

We have a number of after-school activities, which are open to all children. Should any child need support to access these activities, the school will try to make the necessary arrangements.

We have a breakfast club in school and any child can access this providing space is available (it is a paid service). We have regular educational visits as well as visitors coming into school to support different topic areas. There is one residential trip each year in Year 6. All children, as well as those with SEND are included in these. We provide support and reasonable adjustments to allow for full inclusion. We choose visits that are accessible to all.

How will the school prepare my child to join the school or transfer to a new school?

When children have identified SEND before they start here, we work with the people who already know them and use the information already available to identify what their SEN will be in our school setting and how we can manage it. If you tell us you think your child has a SEN we will discuss this with you and look into it. We will share what we discover with you and agree with you what we will do next and what you can do to help your child. If our staff thinks that your child has a SEN this may be because they are not making the same progress as other children; for example, they may not be able to follow instructions or answer questions. We will observe them, assess their understanding of what we are doing in school and use tests to find out what is causing the difficulty.

We recognise that 'moving on' can be difficult for a child with SEN/and or disabilities and take steps to ensure that any transition is as smooth as possible.

If your child is moving to another school:

- We will contact the new school's SENCO and ensure he/she knows about any special arrangements or support that need to be made for your child.
- We will make sure that all records about your child are passed on as soon as possible.

When moving classes in school:

- Information will be passed on to the new class teacher in advance and in most cases, a planning meeting will take place with the new teacher. All SEN Support records will be shared with the new teacher.
- If your child would be helped by a book to support them understand moving on then it will be made for them.
- A meeting is held in the new term. This is an opportunity for parents to meet their child's new class teacher and find out about the expectations etc. for the new academic year.
- Further home visits may be carried out for pupils leaving Nursery school to attend reception to ensure up to date information is shared between parents and the school.

In Year 6:

- The SENCO will attend the Primary Transition Day to discuss the specific needs of your child with the SENCO of their secondary school, and the specialist session for students with an ASD, as appropriate.
- Your child will attend a small group in school, to support their understanding of the changes ahead. This may include creating a 'Personal Passport' which includes information about themselves for their new school.
- Where possible your child will visit their new school on several occasions and in some cases staff from the new school will visit your child in this school.

What specialist services from outside does the school use to help meet children's needs

The school works with a number of external agencies to seek advice and support to ensure that the needs of all children are fully understood and met.

This list is the external agencies currently working with our school.

Agency	Description of Support
Education Psychology Service	Ms. Thomas, is the Educational Psychologist assigned to school. She is allocated a set number of visits per year. The school will prioritise the caseload based on the requirements of children within the school.
NHS Speech and Language Service	Ms Birmingham is the assigned speech and language therapist. Visits are allocated based on the caseload of the school. Children are referred to this service where appropriate.
NHS Occupational Therapy Service	Children are referred to this clinic which is held at Queen Mary Hospital, Roehampton. A panel will convene to review referrals and decide if their service will be appropriate for the child.
NHS School Nurse	Alison Madert is our school nurse. Parents can make contact with the school nurse via the main school office.
Victoria Drive Pupil Referral Unit	Children are referred as required to this service.
Early Years Centre	Children are referred as needed to this service through the Signs of Wellbeing form (SWOB). A panel will then consider the case and how the service can help.
WAAS	Children and families with a child who has diagnosis of Autism or those who have been recently diagnosed with Autism can access this service for advice, parent workshops and support.
Hearing/Visual Impairment Service (WSS)	This service is available to students who have a diagnosis of hearing loss or visual impairment. A qualified teacher of deaf or visual impaired will be allocated at the time of the discovery of the loss and they will continue to work with your child in school.

CAMHS (Child and Adolescent Mental Health Service)	Children are referred as required to this service through the Signs of Wellbeing form (SWOB). A panel will then consider the case and how the service can help.
NHS Paediatric Services	Children are referred as needed to this service.
Up Foundation	Michelle Bativa, is the Up-Team Leader in school. Children can be referred for play therapy.

What will you do if my child has medical needs?

If a pupil has a medical need it is the responsibility of the parent/carer together with medical professionals to formulate and send to the school a care plan. This plan should be reviewed with medical staff if any changes to the child's medical needs should arise. Care plans will then be shared with school staff involved with the pupil. Nominated staff will receive first aid training. Some staff may undertake specific training to support pupils with medical needs.

Where necessary and in agreement with parents/carers medicines can be administered in school, but only where a signed medication agreement form in line with the medication policy is in place. Any medication brought into school must be prescribed.

What should I do if I am unhappy with my child's support or progress?

As parents are involved throughout the implementation of SEND provision, it is hoped that there will be no cause for complaints through misunderstanding or lack of agreement about how best to help a child.

However, if a parent has a complaint the following procedure takes place:

- (1) The parent speaks to the class teacher about the problem. The class teacher investigates giving the parent a date for a follow up appointment.
- (2) If the parent is still not happy, an appointment to see SENCO/Headteacher will be made.
- (3) If the parent is still not satisfied, the parent will be given the name and address of the Chair of the Governors. Members of the Governing body will hear the complaint.
- 4) If the problem is still unresolved, the parent may contact the Director of Education at the Town Hall and/or the Diocesan Board.

http://www.wandsworth.gov.uk/info/200288/student_welfare/263/how_to_make_a_complaint

Where can I go for further advice and support?

- The Wandsworth Information Advice and Support Service (WIASS) provides an impartial free and confidential service to all parents of children with SEND and young people with SEND. Visit their website at <http://www.wandsworth.gov.uk/wiass> email wiaass@wandsworth.gov.uk
- or telephone 020 2271 8065
- Contact a Family- Independent support. Contact a Family Wandsworth (CaF) provide impartial, free and confidential support services to provide information and support for Wandsworth families who are going through the process of getting an Education Health and Care Needs Assessment. To book an appointment with an independent Support worker telephone 020 8947 5260 or email iswandsworth@cafamily.org.uk
- The Wandsworth Parents' Forum "Positive Parent Action" works with the Council to improve all provision for children and young people with SEND and Disabilities aged 0 to 25. If you want to get involved in influencing services visit their website at www.positiveparentaction.org.uk or telephone 020 8947 5260 or email infor@positiveparentaction.org.uk
- More information about the Local Offer of services and support for children and young people with special needs and disabilities in Wandsworth can be found on the Local Offer website. www.wandsworth.gov.uk/localoffer. The Family Information Service (FIS) helpline is open from 9am to 5pm, Monday to Friday on 020 8871 7899 or email fis@wandsworth.gov.uk. Text 07797805456 with 'FIS' at the beginning of your message.

Due to the highly- differentiated nature of support for learners with SEND some programmes may change as needed. Also, not every programme will be available to every child with SEND. Allocation of specialist services and interventions will be dependent on the need, funding, and availability of specialist support services.

The information in this report is accurate now, but we regularly review and make changes to what we offer and keep this information as up-to-date as possible.

This offer is intended to give you clear, accurate and accessible information. If you would like to comment on the content of the offer or make suggestions to improve the information, please email our school office senco@sacredheart-battersea.wandsworth.sch.uk.
